Kingston Heath Golf Club is universally regarded as one of the best manicured courses in Australia and arguably the world. The course was built on a compact parcel of land resulting in some of the best short par 4's and world class par 3 holes.

The architect of this renowned Sandbelt course was Alex Russell who, in 1926, formed a partnership with the famed Dr Alister MacKenzie during his visit to Australia. Today, the course remains substantially the same as the original layout and like all great golf courses, has stood the test of time. The superb greens and bunkers are the highlight at Yarra Yarra and as good as many of MacKenzie's own creations. Typically large, fast and undulating, the greens feature some of the most extreme slopes in Melbourne, while the bunkers are constructed to blend naturally with their surrounds and are intrinsic to the strategy of each hole. The course has been the scene of many major tournaments in its history, leading to world-wide recognition by amateurs and professionals alike.
